

XD SERIES

X Drum è la serie che più di tutte ha messo a dura prova il team R&D Tamburo: trovare la soluzione dell'incognita X: buona qualità-alte prestazioni.

Il progetto

- Suono grave, potente, equilibrato = fusto sottile composto da due essenze: Mersawa (leggero e flessibile), Betulla (tenace e compatto).
- Forte proiezione del suono, versatilità = focus rings in betulla sulle teste dei cilindri + sistema di sospensione dei Toms.
- Resistenza meccanica e praticità = componenti meccanici ed hardware essenziali ma di comprovata affidabilità.
- Look accattivante = finiture di diverse tipologie: rivestita da cover in P.E.T. sparkle o con verniciature see-thru satiniate e high-gloss in U.V. system.

Il risultato

- Il primo e miglior compagno per il giovane e attento musicista.
- Il secondo set per il professionista esperto a pieno ritmo nel mondo della musica live.

X Drum was the most challenging series for Tamburo R&D team who managed to find the right formula to determine the unknown X: high quality - superior performance.

The design

- Low-pitched, full and balanced sound = thin shell made of two types of wood, mersawa (lightweight and flexible) and birch (hard and solid).
- Great sound projection, versatility = birch focus rings on cylinder heads + Tom suspension system.
- Mechanical strength and user-friendliness = basic yet provenly reliable hardware and mechanical parts.
- Alluring look = different types of finish: PET sparkle finish or see-thru satin and UV high-gloss finish.

The result

- The first and best companion instrument for young and scrupulous musicians.
- An ideal second set for the skilled professional drummers who are already at ease in the world of live music.
